第 83 回日本循環器学会採択演題（2019 年）

合力悠平
1. Central Venous Pressure is an Independent Predictor of Acute Kidney Injury in Patients with ST-Elevation Myocardial Infarction
2. Lactate Level is a Useful Marker for Predicting Acute Kidney Injury in Patients with ST-segment Elevation Myocardial Infraction
3. A simple risk stratification model for predicting acute kidney injury from the combination of blood examination variables in patients with STEMI

吉岡吾郎
1. Progressively Reduced LVEF during Long-year Follow-up after Myocardial Infarction Conveys Adverse Outcome as well as initially Reduced LVEF
2. Mid-term outcomes of Full-metal jacket stenting with Second-generation drug-eluting-stent implantation compare with First-generation DES
3. Impact of Low Body Mass Index for Short-term and Mid-term Outcomes of Patients with Acute Myocardial Infarction

安里哲矢
1. Acute Left ventricular thrombus in acute myocardial infarction after primary percutaneous coronary intervention: Incidence, predictor and clinical course
2. Clinical Implications of Geriatric Nutritional Risk Index for Critical Limb Ischemia Patients who Underwent Endovascular Therapy

緒方健二
1. 5-Years Clinical Outcomes of Patients Underwent Percutaneous Coronary Intervention for Calcified Lesions with Rotational Atherectomy and Second-Generation Drug Eluting Stent
2. 2-Years Clinical Outcomes comparing the Drug Eluting Stent and the Second-Generation Bare Nitinol Stent for de novo Femoropopliteal Lesions
木村俊之
1. Adverse Outcomes of Ischemic Mitral Regurgitation at 6-month After Myocardial Infarction: Possible Benefit of Early Intervention by Transcatheter Mitral-valve Repair
2. Predictive Impact of Mitral Apparatus Dynamics on the Improvement of Acute Ischemic Mitral Regurgitation: Four-Dimensional Quantitative Echocardiographic Study

西野峻
1. Mechanism of acute and chronic ischemic mitral regurgitation: What's the difference? What should we know?

プレナリーセッション

松浦広英
1. Target Lesion Revascularization of State-of-the-art Percutaneous Coronary Intervention in the Real-world Setting
2. Biphasic Occurrence and Presentation of Left Ventricular Free Wall Rupture with Acute Myocardial Infarction in Primary Percutaneous Coronary Intervention Era

西平賢作
1. Impact of PCI for Left Main Culprit Lesion on In-Hospital Mortality: Report from the Japan Acute Myocardial Infarction Registry (JAMIR)
プレナリーセッション
2. In-hospital Outcomes of Nonagenarian Patients with Acute Myocardial Infarction Treated with Primary Percutaneous Coronary Intervention

本田泰悠
1. Transient Systolic Anterior Movement of the Mitral Valve in Takotsubo Cardiomyopathy: Three-dimensional Insights into the Unique Mechanisms of Acute Mitral Regurgitation
2. Comparison of Mid-term Clinical Outcomes between Cobalt Chromium Everolimus-Eluting Stent and Third-generation Drug-eluting Stent for Patients with Acute Coronary Syndrome

足利敬一
1. Low-voltage Based Ablation after Pulmonary Vein Isolation for Persistent Atrial Fibrillation is Effective regardless of the Extent of Low-voltage Region

小岩屋宏
1. Clinical Outcomes of Paclitaxel-coated Balloon Angioplasty for Wide-spectrum Lesions; Beyond In-stent Restenosis

桑原大門
1. Impact of Distal Protection with Filter-type Device during Percutaneous Coronary Intervention for Patient with Stable Angina Pectoris

新里広大
1. Clinical Characteristics and In-hospital Outcome of Patients with Acute Myocardial Infarction Complicated by Complete Atrioventricular Block
